The internationalization of the yuan is picking up speed, and this is an evolving story that we have been tracking. In 2010, "dim sum bonds" were introduced to help recycle the hundreds of billions...

The Internationalization Of The Yuan

The yuan would be used to price more international contracts. China exports a lot of commodities that are traditionally priced in U.S. dollars. If they were priced in yuan, China would not have to worry so much about the dollar's value. All central banks would have to hold yuan as part of their foreign exchange reserves. The yuan would be in higher demand.

Yuan: Reserve Currency to Global Currency

The internationalization of the yuan is less than it may seem because it has been largely confined to Hong Kong, a special administrative region of China. Yet at the same time, it reveals the savvy...
