The Putting Patients First Field Guide

Systems cannot put patients first without intent and effort. Medicine is ineradicably individualistic. The doctor-patient relationship defines medicine. Unless a healthcare system intentionally measures its policies by whether or not it puts patients first, patients will get treated as members of a herd. Put Patients First

Put Patients First - What Does It Mean & How Can We Do It ...

put these before our patients. This is natural – but it's not patient-focused. Putting patients first means placing them at the centre of what we do. Here's the 5 key principles and practice areas for putting patients first. They inter-connect – changing your personal approach in one area flows through to others... 1. PUT PATIENTS FIRST ...

PUTTING PATIENTS FIRST 5 Key Principles & Practice Areas

How does the Putting Patients First (PPF) screening tool address mental health challenges? If used effectively, it can be instrumental in helping the patient feel like part of the team, part of the journey, listened to, and helped — looking beyond just pain and nausea and the physical symptoms, and paying attention to fears and worries and concerns.
